Portraits

If you are like most people, you don't have your portrait done for yourself. You do it for others. You do it for those close to you, and for those that will come after you. I remember many Sunday afternoons spent at my grandmother's house looking through old family photos. The professional portraits that my ancestors commissioned have become treasured family heirlooms.

Because I know the importance that portraits have played in the life of my own family, I take the responsibility of creating art for your home and heirlooms for your family very seriously.

Milestones

There are many milestones in life that you may want to commemorate with a portrait: the birth of a child or grandchild, a high school graduation, a move to a new city, a gathering of extended family that happens far too infrequently. Perhaps you want to capture a day in the life of your family, or the entire first year of your baby's life. Maybe you are engaged and want the perfect images to commemorate your happiness. Whatever the reason for your portraits, I'll work with you to create images that you and your loved ones will cherish for years to come.

Your Investment

My session fees are outlined on the following page. The session fee covers your pre-session consultation (which can take place in-person or over the phone) and a session lasting up to two hours.

The session fee does not include prints or products, however, when your order reaches \$800, one half of your session fee will be credited back to you.

Portrait Parties

If you and your friends have been talking about scheduling portraits, a portrait party may be the perfect solution. When you host a portrait party, you have the opportunity to earn credit toward any of the wonderful products that I offer.

A minimum of five families must sign up for a portrait party, and limited dates are available. Please inquire for additional information.

Your Session Location

There are many beautiful locations around Kansas City, and I'm happy to make recommendations. The West Bottoms area has many great textures, colors, and patterns that give an urban contemporary feel to portraits. The Country Club Plaza can lend a European flair to your image. And our many parks and fountains can give your images a traditional look.

Of course, we can also work inside. I'm happy to welcome you into my studio, or I can bring everything we'll need to you. Your home could be the ultimate location to create truly unique, and personal, images.

All of the products that I offer are produced on high-quality archival materials. I've researched many photographic products from sources around the world and believe that I have some of the best products available. All are produced at companies that cater to professional photographers. The only exception are my wax portraits which I hand-craft in my studio.

Session Fees

All session fees are due at the time of booking and may be paid with cash, check, or major credit card. Your session is not confirmed until payment has been made.

Sessions may last up to two hours, and may include up to 10 people or pets. Additional subjects are \$25 each.

You are, of course, welcome to bring a change of clothes to your session if you'd like.

Your Ordering Session

At the end of your portrait session, we will schedule your ordering session. This will typically be one to two weeks after your portrait session, and it's important that all decision-makers are able to be present for this session because there will be special offers available only during the ordering appointment. We will meet in the studio, and your images will be projected onto our 100" screen. If I photographed you in your home, you will even have the option of seeing your photographs virtually displayed on the walls of your home.

Additionally, you will be able to see samples of our products and choose custom matting and framing for your favorite images.

Once your order is placed, most products will be available for pickup within two weeks. Some custom framing products will take up to one month, and my wax portraits can take up to three months to fully cure. Rush processing is available for most products.

Our traditional albums are traditional in name and materials, but the design options are limitless. You choose from beautiful silks, leathers, acrylics, and metals for your cover, and I'll custom design a beautiful layout for the interior. Prices begin at \$895.
